Abbreviated
Question (as it will
appear on search
results page)

We are seeking information, policy and procedures related to a staff member trained as a Capacity Assessor through the Ministry of the Attorney General completing assessments for hospital patients:

1. Can assessments be completed with Mental Health patients on an outpatient basis?
2. Can assessments be completed with patients on the staff's day off if the patient qualifies for subsidy or would this be a conflict?
3. Our new assessor is presently only qualified to do assessments for financial ability. In the future are there instances where assessments for physical care decisions in hospital could occur?

George Fieber RN Nursing Practice Leader Thunder Bay Regional Health Sciences Centre Office: (807) 684-6691 Cell : (807) 629-0889	There are only 2 certified assessors in our part of the province and neither one is employed by our hospital. We have looked at getting one of our mental health nurses trained but the issue of possible conflicts have been raised and the Attorney General's office is not currently offering the training.
