Expression of Interest: PPNO - Executive Board Member

Dear PPNO Executive,

I am submitting my sincere interest in becoming a PPNO Executive Board Member. It would be a privilege to serve in this capacity. Over the years I have developed a keen interest in professional practice at all levels. I have experience as a registered health care professional, public hospital health care leader, university educator and regulatory college board member.

I have been a proud Physiotherapist in good standing for the last 28 years, have hospital managerial experience, teach at the university level and was a College of Physiotherapist Board Member from 2021-2023 sitting on various committees and holding the VP position for two of those years. I am currently the Interprofessional Practice Manager at a community hospital. The role focuses on implementing best practice and continuous quality improvement in the care we deliver to our community.

I believe my diverse experience in a variety of leadership roles offers valuable assets I can bring to PPNO. My foundational principles come from a quality, innovative and progressive lens that would advocate for the broadening of health care professional scopes of practice and implementing best practice standards of care across professions and organizations. My experience as a health care leader and a regulatory board member has provided me a knowledge base related to governance, strategic planning, KPI, data analysis and policy and by-law development and review.

The PPNO is an invaluable resource that offers support to so many health care professionals and organizations and it would be an honour to contribute.

Thank you for considering my interest,

Sincerely,
Jennifer Clifford
